

Vacmobile Health Passes Can Help You Bring Back Safe Face-to-Face Interaction

We all know the benefits.

- Economic recovery, including: schools, universities, corporations, restaurants, hotels, resorts, cruise lines, airlines, arenas, theaters, shops, casinos, spas, salons, gyms, churches, cultural attractions, sporting events, concerts, and more
- Families able to visit their loved ones in nursing homes, assisted living, hospitals, and correctional facilities
- Direct and indirect economic impact from resumption of in-person activities across all sectors
- Boost engagement and morale: resume social interactions in large and small groups, return to in-person work environments, and bring back high density activities, such as restaurants and commercial tradeshow exhibitions

So how do we do this?

By gaining **CONFIDENCE** in face-to-face interactions through the **Vacmobile Suite of Solutions**.

- Safety and Wellness Assurance through multiple levels of authentication and validation technology and with guidance from experts at CDC, Emory Vaccine Center, NIH, The Luminosity Lab at Arizona State University, and others
- Rapid on-site testing from mobile labs integrated with VIP Star Network
- Compliance based on simple Health Pass criteria: **COVID-19 Vaccination and/or Negative COVID-19 Test**
- Easy to use, track, confirm and recognize
- Cleaner and safer air and environments with Medklinn Technology
- Free Health Passes for Medicaid recipients

Get a shot. Get a Health Pass. Get your life back.
